This website contains information relating to Implanon NXT. MSD has prepared it as general training to be used in conjunction with other training options that MSD has made you aware of.

While MSD strongly recommends that registered health care professionals undertake this training, completion of the training does not mean an individual registered health care professional is competent in insertion and removal of Implanon NXT. Each registered health care professional must exercise his or her own independent judgment about his or her individual competence as a registered health care professional to insert and remove Implanon NXT.

MSD also recommends that registered health care professionals check with their occupational associations and insurers as to any requirements they may have before they can insert and remove Implanon NXT.
